The Glycan Array Data Repository

March 20, 2023

- Big Picture and Motivation
- Introducing the Repository
- Live Demo – Data access
- Data Submission Workflow
- Live Demo – Data submission
- Machine –readable access

Introduction to glycan arrays

GLAD

CarboGrove

Sharing of glycan array data

MIRAGE
MIRAGE

Printing surface

Glycan library

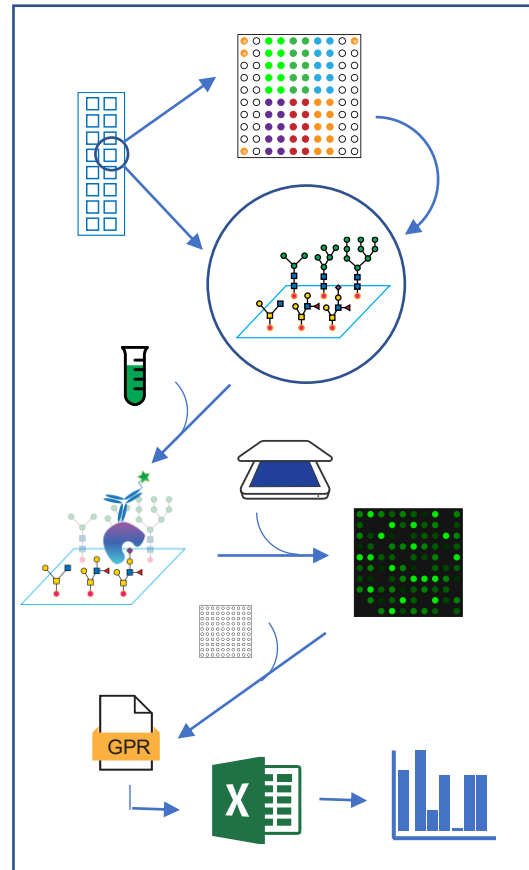

Glycan microarray with “Map”

Arrayer (Printer)

Sample and assay conditions

Detector and Data processing

Glycan microarray data presentation

Data

Image

Raw data

Processed data

Sharing of glycan array data in papers

MIRAGE

Processed data

Sharing of glycan array data in a database

Sharing of glycan array data in a database

The Glycan Array Data Repository

- Repository for storing and sharing **glycan array data and MIRAGE metadata**.
- Free **submission by anybody**. Not limited to a group organization.
- **Free access to public data**
 - Data in original file formats
 - Data in repository file formats
 - Metadata
- **Graphical user interface** and machine-readable **API**
- **Not a data processing system**

NIH Common Fund Glycoscience Program
1U01GM125267-01 (York & Tiemeyer & Mazumder)

Advisor group

Imperial College London

NOVA University of Lisbon
University of Aveiro

National Cancer Institute (NIH)

Harvard University

Scripps Research

The Glycan Array Data Repository

- **Beta system**

<https://glygen.ccrc.uga.edu/ggarray/>

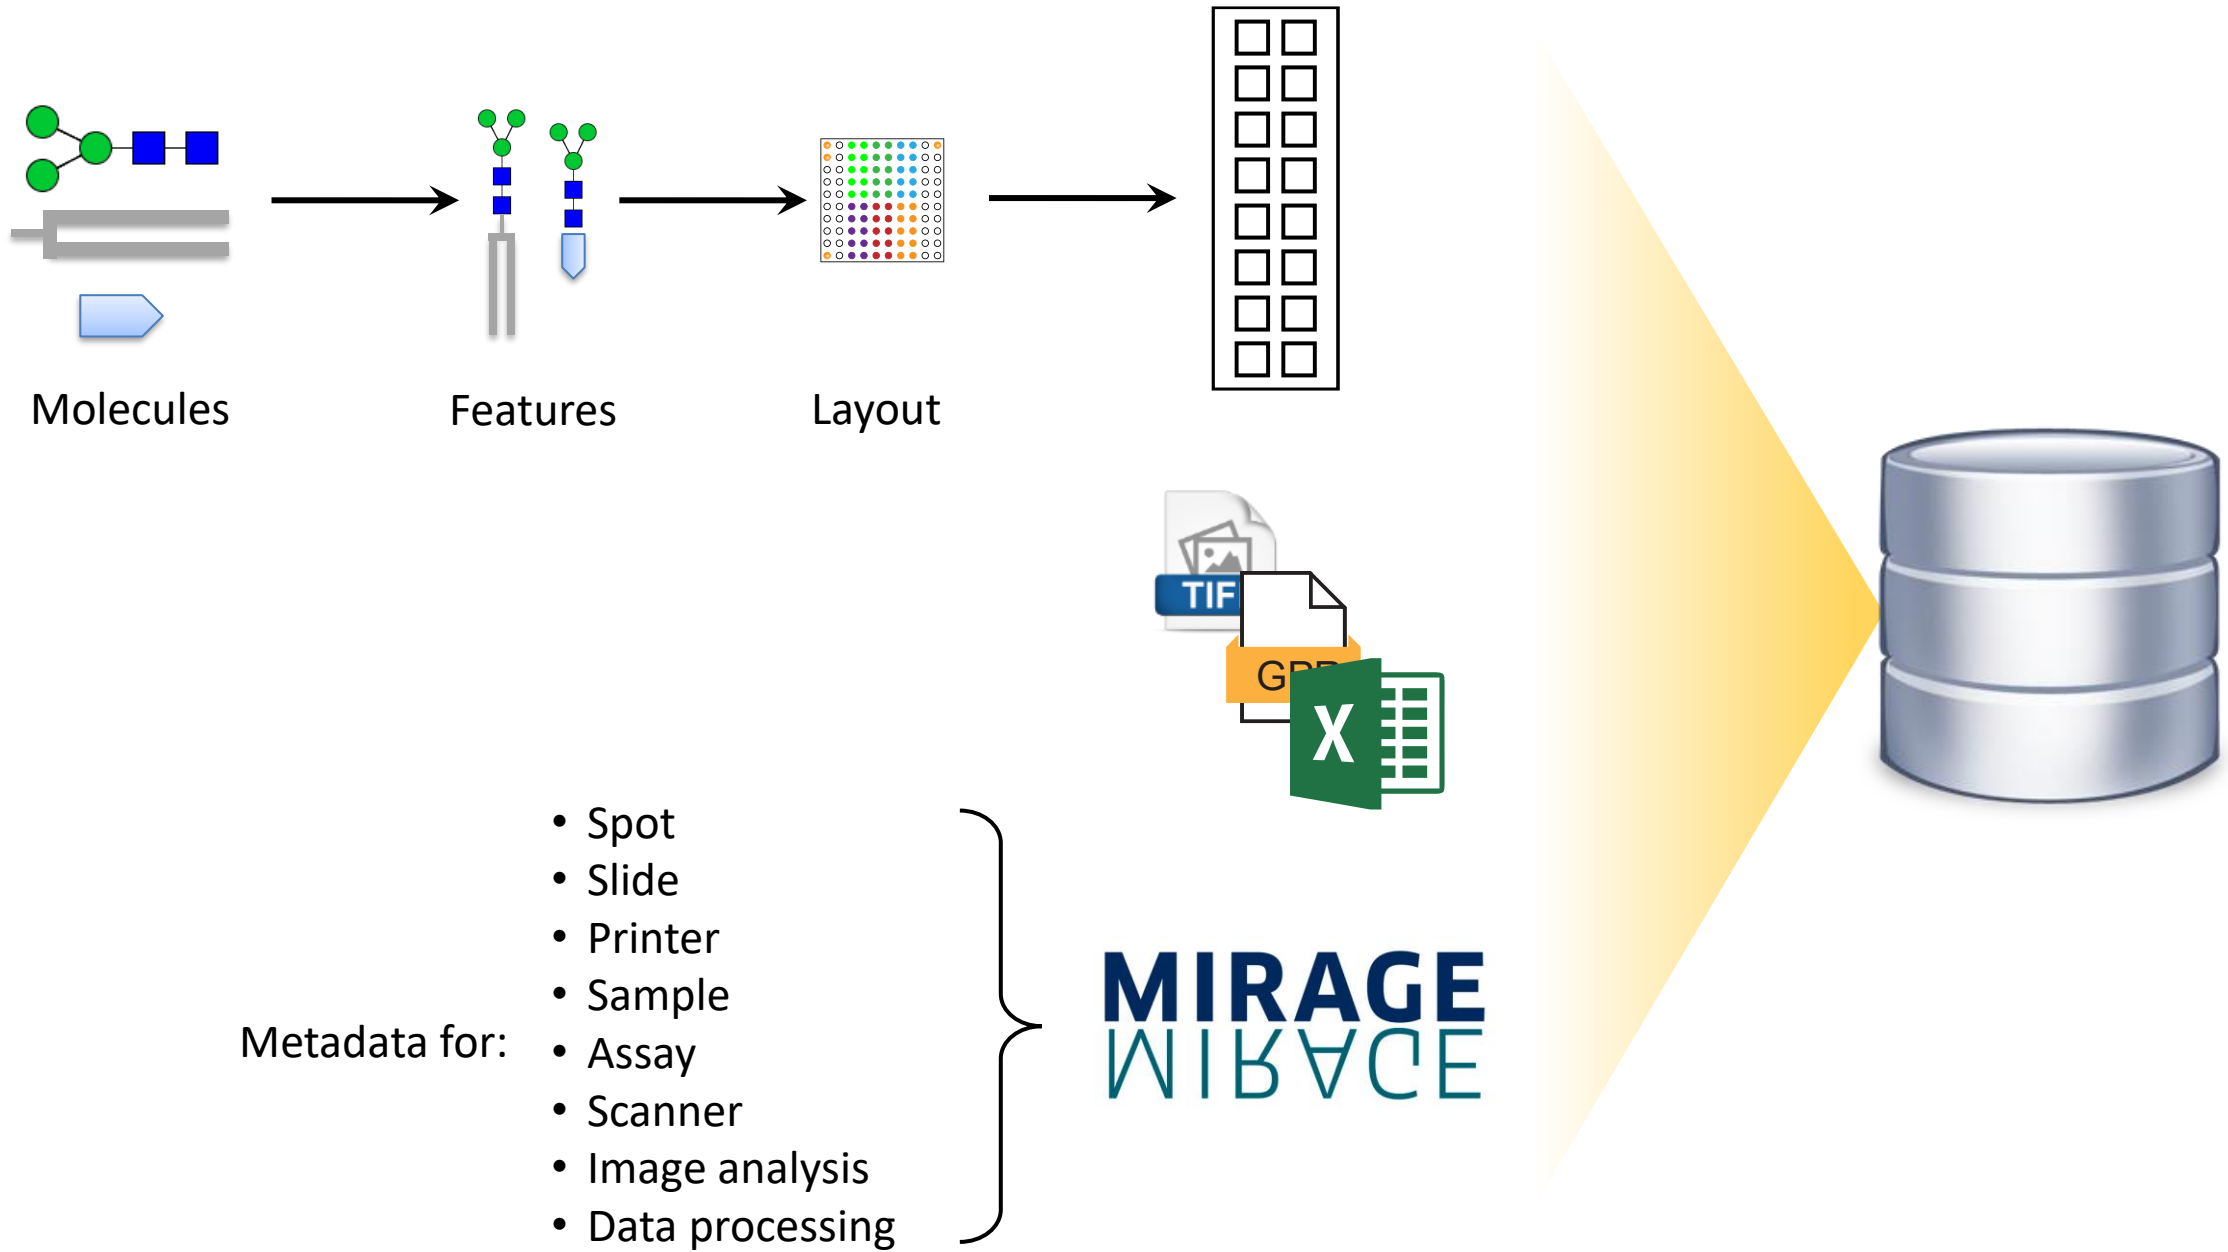

- **Production system**

<https://glygen.ccrc.uga.edu/array/>

Live Demo

Repository, data access and data retrieval

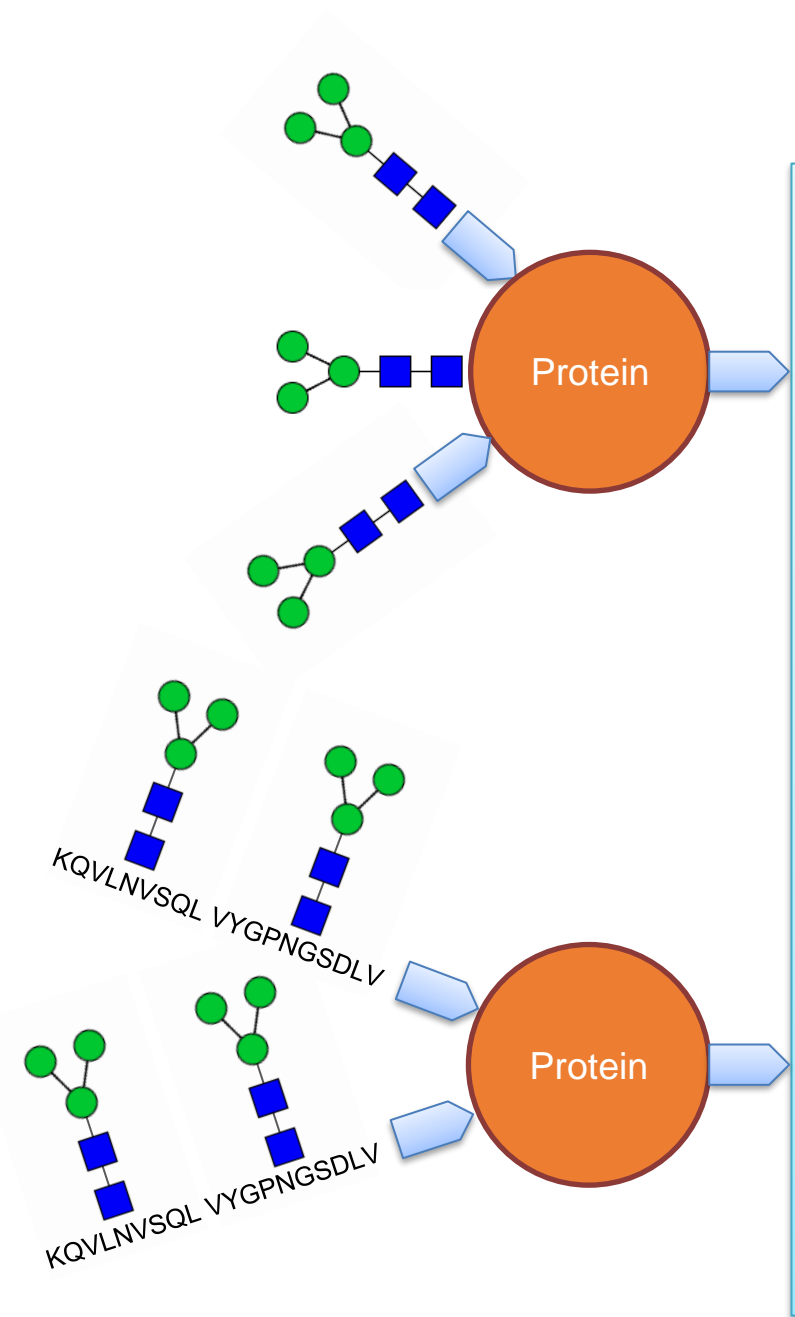

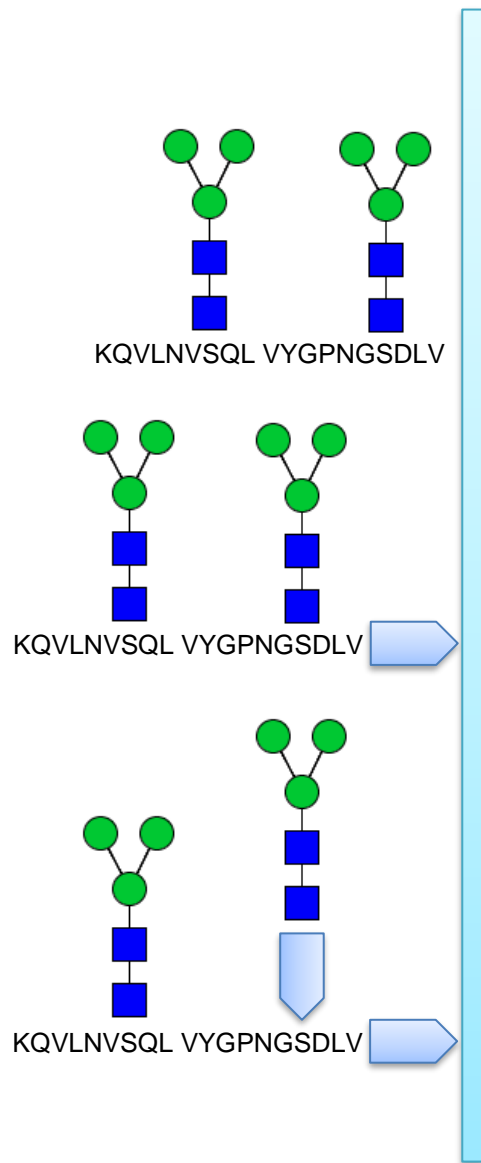

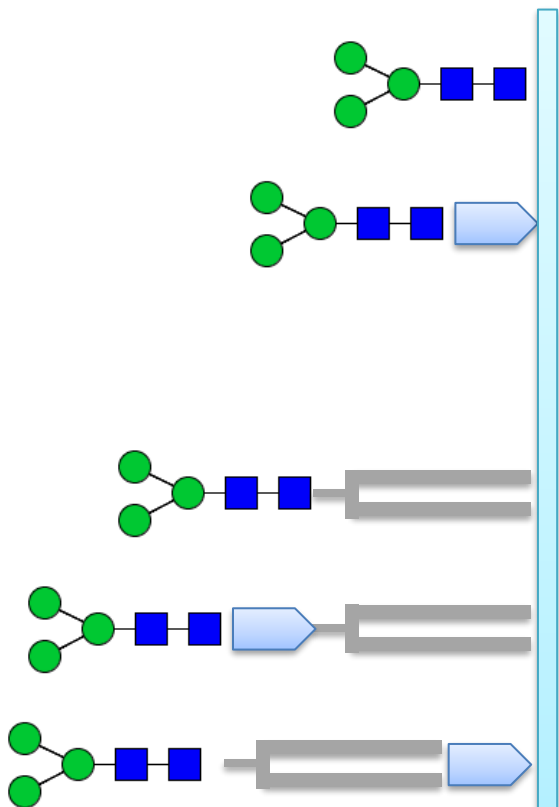

Submission workflow

Live Demo

Data submission

Feature types

-  Lipid
-  Linker / Tag
-  Slide / Surface

Machine-readable access

Triple store

As primary data store. With SPARQL endpoint for public data

WS API + Swagger

RESTful web service API for data access and submission with Swagger documentation

Java Client

Java client library for accessing the RESTful web service API
